10. Useful information
1. Introduction

This guide aims to help international students adapt to their new life in Alicante. It was selflessly created by two non-profit student organizations of the University of Alicante: AEGEE-Alicante and ESN-UA.

Both associations have worked together to gather useful information and resources in order to improve and make the stay of foreign students easier. We hope we will achieve this goal.

This guide was made between February to September, 2014 and updated in March, 2019.
2. Students’ associations: AEGEE and ESN.

- **AEGEE-Alicante**

  AEGEE (Association des États Généraux des Étudiants de l’Europe), also known as European Students’ Forum, was founded in Paris in 1985, and nowadays it is one of the biggest interdisciplinary student organizations in Europe. Founded by and for young people, AEGEE has grown to a Network of 13000 members, present in 200 cities in 40 countries all over Europe. AEGEE is a non-governmental, politically independent, and non-profit organization, in which young Europeans work together voluntarily in cross-border activities, having as main goal to foster a united Europe, creating an open-minded, tolerant society, and to promote mobility and cooperation.

  **AEGEE-Alicante** is one of the 200 local venues of this association. It has been working for more than 10 years and it is located at the University of Alicante, even though there are members from all over the province and Murcia.

  Website: [http://www.aegeealicante.org](http://www.aegeealicante.org)

- **ESN**

  ESN (Erasmus Student Network) is one of the biggest interdisciplinary students’ organizations in Europe, founded in 1989 to help in students’ mobility. ESN is present in 424 institutions in 36 countries, being always in constant evolution and expansion. Its objectives are: to work in the best interest of international students, to improve their integration in society, to represent their needs and rights, to provide them with relevant information about mobility programmes, to help the students who come back to their countries to readjust, contribute, improve and make students’ mobility easier and, finally, to follow the values of voluntary work and active citizenship.

  **ESN-UA** was created in 2011 by several students of the University of Alicante with the common interest of working selflessly in helping foreign students who come to study to our University.

Programmes offered by AEGEE and ESN to international students

- **Buddy program (AEGEE-Alicante)**
  Its focus is on international students and its main objective is to give support and resources, so that they can adapt more easily to life in Alicante and the University. Its task is basically to put an international student in contact with a local student called 'Local buddy'. The local buddy will help the student with his/her adaptation process and any other possible issues that may arise. Also, the local buddy will help him/her to understand our culture, how to manage himself/herself at the University, and to benefit from its resources. To apply for this program, you just have to fill the application form.

- **Erasmus in Schools Project (EiS) (ESN)**
  The goal of this project is to promote international mobility at an early age, as well as to eliminate stereotypes and ideological barriers by promoting knowledge about the Erasmus programme experience, and by encouraging young people of all ages to open themselves up to Europe, promoting thus the European citizenship and putting different cultures together.

- **Social Erasmus (ESN)**
  The goal of this project is to complete the stay abroad with the values of the Erasmus programme. Erasmus must be an opportunity to get to know new cultures and new educational systems, make new friendships, etc. but it must also be an inspiration for the future. The motto of this project is: Reach higher! Go further! Go Social!

- **ExchangeAbility Project (ESN)**
  Some examples of activities that have been successfully carried out are a basketball game on wheelchairs (ESN UC3M y ESN Oviedo), a Spring Party in collaboration with ASPRONA Valladolid (ESN Uva) or a Beer Party with the young people from ONCE (ESN UAM).

Alicante has a dry, Mediterranean climate with mild temperatures throughout the year. It does not rain often, and when it does, it is concentrated in equinoctial periods. There are about 37 rainy days per year, mostly in September and October, due to heavy rains caused by the ‘cold drop’. There is a total of 2,851 sunlight hours. The temperatures range between 17°C and 6.3°C in January and 30.8°C and 21.2°C in August. The average annual temperature is 18.3°C, frosts being as exceptional as temperatures above 40 ° C. Thanks to the maritime influence, the difference between night and day temperatures is fairly small, though in some occasional periods of westerly winds, it can exceed 15°C of difference. The temperatures don’t fluctuate much during the year, as there are mild winters and hot summers. Therefore, it is highly recommended to use a high sunscreen protection and sun glasses.

In Alcoy, the Moors and Christians Festival is celebrated in honor of Saint George. Declared a Touristic festival of International Interest in 1980, it is considered as the birthplace of all the others celebrated throughout the whole of the Valencian Community.

The official calendar of the festival in Alcoy is from April 22 to 24, although the timing of the Holy Week holiday can cause changes in the usual calendar. It includes the reenactment of the battle between the Moors and the Christians. Its origin lies in the Battle of Alcoy that took place in 1276 at the gates of the city. It is traditionally assumed that the people from Alcoy fought the troops of the Muslim leader Alazraq. According to this legend, at a key moment during the battle, Saint George appeared riding a horse on the city walls deciding the result of the fight.

For this reason, Saint George was also declared saint patron of these celebrations which take place on April 23. As part of these celebrations, the Moors and Christians Festival are organized by the Saint George Association since at least 1883. **Holy Week**

Alicante’s Holy Week brings us closer to the events that took place in the life of Jesus of Nazareth: his passion, death and resurrection. There are 27 processions with 15,000 participants, and a total of 115 works of art put together in 55 groups of sculptures. This religious event, as we know it, started around 1600 but it’s logical to think that it already existed in some form previous to that date. It’s celebrated between late March and mid-April.

The most relevant days are: Palm Sunday, Holy Monday, Holy Tuesday, Holy Wednesday, Holy Thursday, Good Friday, Easter and Easter Monday.

Santa Faz

It is a festival celebrated on the second Thursday after Easter. It is based on the Catholic relic housed in the Santa Faz monastery, in San Juan. This relic is a linen cloth the Vatican has declared to be one of the three *Faces of Christ*. This relic is the object of a procession that attracts more than 260,000 pilgrims every year, usually walking from the Cathedral of Saint Nicholas in Alicante to the monastery of Santa Faz. It is the second most important pilgrimage in Spain after El Rocío.

During the pilgrimage, pilgrims pray at the Stations of the Cross and the most traditional participants wear a black robe, and a scarf around their necks with the colors of the city: white and blue. Besides, people carry rosemary canes that are given away at the cathedral an hour before the start of the procession.

Along the way, there are usually traditional stands - the paraeta--, where you can have anise rolls and mistela wine, typical products from the region. There are also market stalls around the monastery, which usually offer handmade products.

Carnaval

Every year, with the first full moon of spring--usually around February---, Alicante starts the celebration of one of the most fun festivals of the city, which fills the streets with colour and joy. The carnivals of Alicante are characterized by a week of music, costumes, parades, workshops and parties, where the locals participate actively putting a big smile on the faces of the many visitors.

The Thursday that starts the carnival is called *El Dijous de Gras*, and on this day, Plaza de San Cristóbal (Saint Christopher square) is decorated duly along the day. Also the *Correfoc Carnavalero* and the *Arribada del Momo* takes place from Alcalá Galiano street to Quijano square.

On El Sábado Ramblero (Saturday Ramblero) kids enjoy the carnival in the afternoon, and in the evening starts the Verbena de Carnaval Rock festival at Plaza San Cristóbal and the Verbena del Sábado Ramblero festival at Rambla de Méndez Núñez.
On El Domingo de Resaca (Hangover Sunday), kids and grownups alike can go to the Explanada where they can participate in different sorts of entertainment for their age groups.

Martes de Carnaval (Carnival Tuesday) is when most people dressed up. In the evening, the Jui d’en Carnestoltes and the Processó del Pelele take place at Plaza San Cristóbal, starting at this square and finishing at Plaza de la Santa Faz. Afterwards, on the way back to Plaza Quijano, the Carnival Tuesday Dance takes place, with a live group performance.

Finally, the following day the Entierro de la Sardina (The Burial of the Sardine) is celebrated. The wake takes place at the Central Market, Alfonso el Sabio Avenue, and then the funeral procession to Plaza del Carmen takes place. Later, the Great Black Dance is performed at the same plaza, accompanied by a live music group.
